

Job Title: **Approved Reseller Partner**

---

Job Description:

The role of an approved reseller partner is to actively promote and sell the HREvaluate software application to a range of new clients in an agreed geographical area of the UK.

The role will suit applicants who are already successful in a consultative sales environment and who have an understanding of people management backed up by formal qualifications or at least five years management experience.

Training on the application is provided by MobiusHR, as is one to one sales support.

Further information about the product is available from the website or by calling John Shenton on 07946-577521.

The position is COMMISSION ONLY supported by significant scope for ongoing sustainable commissions based on regular usage and annual licence fees.

The product is particularly exciting to sell and offers the sales person the opportunity to offer potential clients a “try before you buy” offer that can be initiated via the internet.

If you are interested in adding HREvaluate to your portfolio of professional products, **and you really want to make a difference by helping your clients improve their business performance,**

apply by e-mail to [john.shenton@mobiushr.co.uk](mailto:john.shenton@mobiushr.co.uk) today.

Each application will be viewed on its merits.

Not all applicants will be successful.

First impressions count. This is your chance to impress.
